Experience

Aircraft Dispatcher – Endeavor Air | June 2026 – Present

- Dispatch CRJ flights end to end in Sabre dispatch systems, from release to arrival.
- Work weather, NOTAM, routing, and performance data to keep flights legal and efficient.
- Hold operational control jointly with the captain and adjust the plan in flight.
- Apply MELs and CDLs, and run QRH procedures with the crew during in-flight emergencies.
- Flight follow each flight to make sure they are safe from weather and other hazards using CAE Flight Explorer.
- Handle reroutes and flow through congested New York airspace during irregular operations. Utilizing ASI software to plan departure fixes and routes out of New York

Barista / Bartender / Production – Shakopee Brewhall | June 2025 – June 2026

- Ran a busy taproom bar for both coffee and beer; built a small Excel macro tool to track the canning line.

Computer Science Tutor and Grader – Gustavus Adolphus College | Sept 2023 – May 2025

- Sat with students one-on-one on data structures, algorithms, and debugging until it clicked.
- Graded projects to each professor's rubric and wrote feedback students could act on.

Certifications & Flight Training

- Commercial Pilot (ASEL) with an Instrument rating; Certified Flight Instructor — Airplane (CFI) and Instrument (CFII); Advanced Ground Instructor (AGI), Gold Seal eligible.
- Aircraft Dispatcher Certificate (ADX) — airline operations, flight planning, weather, aircraft performance, and ATC.

Technical Projects

- Music-captioning ML model (Python) — full pipeline from scratch on Google's MusicCaps dataset; under-trained, limited by available compute.
- Android app (Kotlin) — full-stack team build, walked through in a live demo.
- Game (Godot / GDScript) — gameplay systems and UI on a team project.

Skills

- Programming: Python, Kotlin, Java, GDScript; Git; training ML models from scratch.
- Dispatch and operations software: Sabre Dispatch Monitor, Sabre Control Plot, Flight Explorer, ASI
- Microsoft Office, including Excel macros; quick to pick up unfamiliar systems and codebases.

Education

Bachelor of Arts, Computer Science – Gustavus Adolphus College | 2025

President's Scholarship and Music Scholarship recipient.
